C O N T E N T S

Volume 6

Number 1, July 1976

The isolation and characterization of a new bovine herpesvirus associated with abortion

Robert A. Crandell, Donald M. Sells and Anthony M. Gallina 1

Androgen induction of intersexuality in sheep

Thomas A. Alifakiotis, J.W. Call and Warren C. Foote 21

A comparison of the inhibition of the metabolism of ram and rabbit spermatozoa by α-Chlorohydrin *in vitro*

P.D.C. Brown-Woodman and I.G. White 29

Immune response to genital mycoplasmosis in bulls

L.B. Corbeil, P.J. Bier, C.E. Hall and J.R. Duncan 39

Treatment of bovine pyometra with prostaglandin $F_{2\alpha}$: An evaluation of a field study

B. Gustafsson, G. Bäckström and L.-E. Edqvist 45

Preparation of teaser bulls and steroid-implanted steers and their effectiveness in detecting estrus

T.J. McDonald, R.H. Foote, Maarten Drost, L. Lu, M. Patrascu and C.E. Hall, Jr. 51

Effects of intrauterine infusion of Gentamicin Sulfate on bovine fertility

W.H. Daniels, D.A. Morrow, B.W. Pickett and L. Ball 61

Erratum 69

Numbers 2-3, August-September 1976

Notice 72

Acknowledgement 73

Oscar W. Schalm 74

Bibliography of Oscar W. Schalm. 79

Immunological response to Mycoplasma gallisepticum

H.E. Adler 87

Clinicopathologic alterations in normal and exhausted endurance horses

Gary P. Carlson, Patrick O. Ocen, and Doris Harrold 93

Canine brucellosis: An annotated review with selected cautionary comments

L.E. Carmichael 105

Further observations on the hematology and clinical biochemistry of the Irish thoroughbred horse

J.D. Collins and W.R. Kelly 117

Observations on systemic lupus erythematosus accompanying lymphoreticular neoplasia in poikilothermic species

Fredric L. Frye 127

Quantitative determinations of normal horse, cat and dog haptoglobins

John W. Harvey 133

Herpes virus saimiri lymphoma in owl monkeys (*Aotus trivirgatus*): Susceptibility, latent period, hematologic picture and course

R.D. Hunt, B.J. Blake and M.D. Daniel 139

Neutrophil leukocytes and inflammation of the bovine mammary gland

N.C. Jain 153

Coliform mastitis in pastured herds

D.E. Jasper 175

Osteoporosis in chickens with hereditary muscular dystrophy

Logan M. Julian 183

The use of antiaminophencyclidine antibodies for development of a sensitive radioimmunoassay

A. Kalir, Esther Katz, Lili Raveh, Elkavetz Rivkah and M. Torten 193

Serum fibrinogen-related antigen concentrations in the normal dog as measured by the tanned erythrocyte hemagglutination-inhibition immunoassay

K.S. Keeton 209

Comparative developmental hematology: Animal models to study human fetal erythropoiesis

Hyram Kitchen 217

Measurement of electric resistance of the vaginal mucus as an aid for heat detection

W. Leidl and R. Stolla 237

Recent studies on epizootic bovine abortion

D.G. McKercher, J.H. Theis, E.M. Wada, E.C. Loomis, V. Bolton and H. Ito 251

Evolution and taxonomy in the genus *Brucella*: Brucellosis of rodents

Margaret E. Meyer 263

Kidney development in newborn lambs: Response to water load and antidiuretic hormone (ADH)

Harold R. Parker and Judith Ann Murphy 273

Canine intervertebral disc disease: Occurrence by age, breed and sex among 8,117 cases

William A. Priester 293

Animal disease constraints to world food production

W.R. Pritchard 305

γ-Glutamyl Cysteine and Pyroglutamate in normal and Glutathione-deficient erythrocytes of Corriedale sheep

Joseph E. Smith 313

Studies on increasing the virulence of the bovine leukosis virus

Otto C. Straub 323

Public health aspects of animal tumor viruses

Gordon H. Theilen 331

Endotoxin in blood and milk and enzymes in the milk of cows during experimental Escherichia Coli Endotoxin Mastitis

G. Ziv, I. Hartman, E. Bogin, J. Abidar and A. Saran 343

Number 4, October 1976

Influence of exogenous phosphorus on uterine fluids composition

P. Lamothe, D. Bousquet and P. Guay 353

Peripheral progesterone levels in pregnant and non-pregnant heifers following use of HCG

L.M. Morris, E. Gonzalez-Padilla, G.D. Niswender and J.N. Wiltbank 367

Sheep-Goat hybrid karyotypes

Thomas D. Bunch, Warren C. Foote and J. Juan Spillett 379

Sexual behaviour of bulls at pasture: A review

M.A.deB. Blockey 387

Serving capacity - a measure of the serving efficiency of bulls during pasture mating

M.A.deB. Blockey 393

Induction of ovulation during the postpartum period in the thoroughbred mare with a prostaglandin analogue, Synchrocept™

E. Tolksdorff, W. Jöchle, D.R. Lamond, E. Klug and H. Merkt 403

Hormone response of dairy cows with ovarian cysts after treatment with HCG or GnRH

H.A. Garverick, D.J. Kesler, T.C. Cantley, G. Elmore, R.S. Youngquist and C.J. Bierschwal 413

Estrous behavior and ovarian activity in peripuberal heifers

D.A. Morrow, L.V. Swanson and H.D. Hafs 427

Induction of parturition in conjunction with antibiotic treatments

G.R. Poncelet and E.L. Moody 437

Pathogenicity studies on a bovine herpesvirus

J.W. Kendrick, B.I. Osburn and N. Kronlund 447

Effects of synthetic GnRH on litter size in ranch mink bred once or twice

Bruce D. Murphy 463

Erratum 469

Number 5, November 1976

A single cannula technique for nonsurgical collection of ova from cattle

R.F. Rowe, M.R. Del Campo, C.L. Eilts, L.R. French, R.P. Winch and O.J. Ginther 471

Scrotal circumference measurements in 764 beef bulls

R.G. Elmore, C.J. Bierschwal, and R.S. Youngquist 485

Postpartum uterine and ovarian changes, and estrous behavior from lactation effects in normal and hormone treated ewes

J.W. Call, W.C. Foote, C.D. Eckre, and C.V. Hulet 495

A device for nonsurgical recovery of bovine embryos

M. Drost, A. Brand and M.H. Aarts 503

A device for nonsurgical transfer of bovine embryos and its effect on uterine contamination

A. Brand, M. Drost, M.H. Aarts and J.W. Gunnink 509

THERIOGENOLOGY

Vertical transmission of *Anaplasma marginale* in cattle

Brinton L. Swift and Richard J. Paumer 515

Non-Surgical recovery of bovine eggs

R.P. Elsden, J.F. Hasler and G.E. Seidel, Jr. 523

Corpus luteum function in the guinea pig: Effect of $PGF_{2\alpha}$ and inhibitors of prostaglandin and progesterone biosynthesis

T.N. Mellin and R.D. Busch 533

Artificial insemination of sheep: The fertility of semen extended in diluents containing egg yolk and inseminated soon after dilution or stored at 5°C for 24 or 48 hours

P.F. Watson and I.C.A. Martin 553

Artificial insemination of sheep: The effect of semen diluents containing egg yolk on the fertility of ram semen

P.F. Watson and I.C.A. Martin 559

Persistency of egg production of common coturnix is affected by early light regimens

W.O. Wilson, T.D. Siopes and K. Homma 565

Dairy cattle breeding problems and their consequences

C.L. Pelissier 575

Antibodies to egg yolk in blood serum of rabbits and cattle and cervical mucus of cattle inseminated artificially

G.H. Coulter, R.H. Foote, J.J. Schiavo, and R.K Braun 585

Letter to the Editor

W. Jöchle 591

Number 6, December 1976

Letter from the Editor 593

Vascular changes during luteal regression in sheep

J.D. O'Shea, M.G. Nightingale and W.A. Chamley 597

Blood vessels of the genital tract in female marsupials

C.S. Lee and J.D. O'Shea 598

Ultrastructure of luteal cells in several mammalian species with reference to the secretion of progesterone

R.T. Gemmell and B.D. Stacy 599

Corpus luteum activity during the oestrous cycle of the hopping mouse *Notomys alexis*

W.G. Breed and M. Papps 600

Cyclic changes in total ovarian blood flow in conscious ewes

B.W. Brown, M.J. Emery and P.E. Mattner 601

Histological observations of the ovary of the Cunningham's rock skink, *Egernia cunninghami*

G.S. Kesby 602

Biochemical studies on sheep ovarian follicles maintained in organ culture

R.F. Seamark, F. Amato, Susan Hendrickson, Leila Mak and R.M. Moor 603

Biochemical studies on sheep ovarian follicles in culture: Lipogenesis and effects of gonadotrophins

R.P. Hamilton, R.F. Seamark and R.M. Moor 604

Human graafian follicles in tissue culture: Correlations between oestrogen and progesterone production and the site of Δ^5-3β- Hydroxy-steroid dehydrogenase activity

J.F.P. Kerin, R.M. Moor and R.F. Seamark 605

Oestradiol levels during the oestrous cycle: A comparison of 3 breeds of different fecundity

R.J. Scaramuzzi and R.B. Land 606

Immunization of ewes to oestrogens: Effects on the oestrous cycle and parturition

R.I. Cox, Patricia A. Wilson and P.E. Mattner 607

THERIOGENOLOGY

Ocular administration of synthetic luteinizing hormone releasing hormone (LH-RH) in the rat

Shao-Yao Ying 608

Local application of Prostaglandin $F_{2\alpha}$ to the exterior of the ovarian vasculature: Effects on the ovine corpus luteum

B.D. Stacy and R.T. Gemmell 609

Prostaglandins and luteolysis in the goat and human

D.A. Shutt, I.D. Smith and R.P. Shearman 610

A technique to count mounts during flock mating in sheep using a meter harnessed to rams

R.J. Kilgour and H. King 611

Effect of androgens and oestradiol on libido and aggressiveness in rams castrated as adults

P.E. Mattner 612

Testosterone treatment of ram lambs: Effect on adult libido

P.E. Mattner, J.M. George and A.W.H. Braden 613

The influence of androgens and oestrogens on mating behaviour in male sheep

Michael J. D'Occhio and David E. Brooks 614

Testosterone variability and fertility in bulls

T.B. Post and H.R. Christensen 615

Oestradiol and progesterone: Soluble receptor levels and metabolism in the uterus of the ovariectomized ewe

Leigh Murphy, G.M. Stone, B.G. Miller and N.W. Moore 616

Hormone receptor levels and hormone, RNA and protein metabolism in the genital tract during the oestrous cycle in the ewe

G.M. Stone, Leigh Murphy and B.G. Miller 617

Ultrastructural observations on the epithelium of the vaginal caecae of the marsupial *Perameles nasuta* with particular reference to oestradiol induced secretory activity

B.V. Harmon and R.L. Hughes 618

Effect of estrogen supplementation on uterine, placental and ovarian blood flow in mid and late term rabbits

Neville W. Bruce 619

Effect of an analogue of LH-RH (D-Ser(TBU)^{6}-EA^{10}; Hoe 766, Hoechst AG) on gonadotrophin secretion, oestrus and ovulation rate in sheep

J.K. Findlay, I.A. Cumming and I.J. Fairnie 620

Seasonality of ovulation rate in Merino ewes differing in fecundity

B.M. Bindon and L.R. Piper 621

Ovulation rate in high fecundity Merino crosses

L.R. Piper, A.J. Allison, B.M. Bindon, P. Gheradi, R.W. Kelly, I.D. Killeen, D.R. Lindsay, C. Oldham, D. Robertson, & J.R. Stevenson 622

Variation between years in seasonal ovulation rate of border Leicester x Merino ewes receiving Lupin grain supplement

D.J. Rizzoli, J.L. Reeve, R.W. Baxter and I.A. Cumming 623

Effect of feeding legume grain supplements on ovulation rate in border Leicester x Merino ewes

I.F. Davis and I.A. Cumming 624

Altered ovarian function in ewes after prolonged exposure to plant estrogens

Norman R. Adams 625

Increase in Melatonin content of fetal sheep pineal tissue approaching term

D.J. Kennaway and R.F. Seamark 626

THERIOGENOLOGY

Production and characterization of antisera to pregnancy specific antigens in the sheep, cow and pig

L.D. Staples, R.A.S. Lawson, Mildred Cerini, Marion Sheers and J.K. Findlay 627

Protein composition of uterine flushings of rats in different endocrinological states

K. Umapathysivam and W.G. Breed 628

Carbonic anhydrase isoenzymes in the erythrocytes and uterus of the sheep

J.E.A. McIntosh 629

Cyclic AMP release by sheep ovaries following gonadotrophin stimulation *in vivo*

T.J. Weiss, F. Amato and P.O. Janson 630

Steroid metabolism of isolated cell types in the corpus luteum of the pregnant cow

Meredith Lemon, M. Loir and P. Mauleon 631

LH release in pregnant, suckling delayed and pseudopregnant mice

A.A. Gidley-Baird, B.M. White and C.W. Emmens 632

LH-releasing hormone activity in the ovine pineal

R.S. Carson, C.D. Matthews, J.K. Findlay, R.G. Symons and H.G. Burger 633

Effects of ice seeding and of freezing and thawing rate on the development of sheep embryos stored at -196°C

R.J. Bilton and N.W. Moore 635

Effects of progesterone and oestradiol on endometrial metabolism and embryo survival in the ovariectomized ewe

B.G. Miller and N.W. Moore 636

The effects of age of egg and site of transfer on survival of transferred eggs in the ewe

I.D. Killeen 637

The use of embryo transfer in the Angora goat

N.W. Moore and J. Eppleston 638

The control of oestrus and ovulation in the Feral goat

N.W. Moore 639

Liveweight and fertility in Hereford heifers and mature lactating Hereford cows

L.J. Cummins 640

Evidence for hypothalamic dysfunction in suckled beef cows

H.M. Radford, C.D. Nancarrow and P.E. Mattner 641

Responses in ovariectomized cows to repeated injections of thyrotrophin releasing hormone (TRH) and to oestradiol benzoate (ODB)

C.D. Nancarrow and H.M. Radford 642

Corpus luteum inhibition by prolactin in the Tammar Wallaby

C.H. Tyndale-Biscoe and J. Hawkins 643

The effect of 2-Bromo-α-Ergocryptine (CB154) and 2-Chloro-6-Methylergoline-8β-Acetonitrile (LERGO) on prolactin secretion of the ewe

R.D. Hooley, L.R. Fell and J.K. Findlay 644

The importance of the milking stimulus and prolactin release in the artificial induction of lactation in cows

C.J. Peel, J.W. Taylor, A.A. McGowan, R.D. Hooley and J.K. Findlay 645

Regulation of enzyme levels in the rat epididymis by androgens

D.E. Brooks 647

Antifertility action of α-Chlorohydrin derivatives in male rats and assessment of side effects

P.D.C. Brown-Woodman, I.G. White and D.D. Ridley 648

THERIOGENOLOGY

Studies of the composition of human uterine rinsings

Suzanne Morris and I.G. White 649

Studies of cattle fertility in France

Michel Courot 651

Fertility of boar semen frozen in a concentrated state

W.M.C. Maxwell and S. Salamon 653

The metabolism of boar spermatozoa during cooling to and after storage at -196°C

T. O'Shea, J.L. Dacheux and M. Paquignon 654

Prostaglandin supplementation of diluted ram semen in artificial insemination - preliminary studies

P.B. Marley, B.A. Richardson, P.D.C. Brown-Woqdman, I.C.A. Martin and I.G. White 655

The nature of ultrastructural changes induced by exposure of spermatozoa to Lysolecithin

R.C. Jones 656

Acrosome development during spermiogenesis in some Australian marsupials: An ultrastructural study

H.R. Harding, F.N. Carrick and C.D. Shorey 657

Glucose metabolism in the rat testis

Alan W. Blackshaw 658

Oxygen consumption and sugar utilization by the spermatozoa of a marsupial, the Brush-Tailed possum

J.C. Rodger and I.G. White 659
